

TASK FORCE NOTES ON CUB SCOUT ADVANCEMENT MODIFICATIONS**Purpose**

With one year of experience, feedback suggests that the new design of the Cub Scout program did successfully address many original concerns, but also indicates an opportunity for further modifications. Cub advancement was down after the first year of implementation and we know that correlates to lower member satisfaction and subsequently, lower retention. Some Den Leaders are having difficulty fitting all the Adventures required for advancement into their program year given their number of Den meetings and weather/daylight issues for outdoor activities. Overnight camping is a significant hurdle for some. Duty to God requirements connote organized religion to some and are not seen as embracing a belief in God and spirituality outside of specific faiths.

A task force was formed to draft modifications to the Cub Scout Program that would address this feedback. These modifications are designed to ensure that Adventure requirements are achievable by today's Cub Scout dens within a program year and achievable by Cub Scouts from a wide range of backgrounds and socio-cultural experiences.

Approach

In order to maintain the integrity of the engaging, mission-driven, and user-friendly new Cub Scouting program, every effort was made to change as little as possible. All adjustments are intended to strengthen and support the new program as well as to assist the youth, families, and volunteers engaged in Cub Scouting.

Flexibility is key. Most modifications involve the number of requirements to be completed, reducing the mandate to a number achievable within the limited time available to many dens, while retaining rich program options that allow leaders to build strong programs adapted to local needs and situations. Some rewording fosters participation by boys who could not otherwise complete an Adventure.

Resources and Contributors

Guidance and input was from a wide variety of stakeholder groups and individuals. Contributors and reviewers included representatives from faith-based organizations and cultural groups as well as BSA volunteers with specific program expertise, recent grassroots experience, and current engagement in regional and national BSA leadership. We greatly appreciate the thoughtful suggestions, support, and engagement of all those consulted.

Suggested Rollout

Modifications should be implemented quickly to prevent another year of advancement challenges. Prompt electronic publishing (foregoing professional copyediting in an effort to get the material into leaders hands as quickly as possible) of all 2016-2017 requirements was determined as the best path forward, resulting in little disruption to the program. The transition will be seamless, with leaders choosing to use revised requirements as the den begins any new Adventure. The modified requirements can be used with the current handbooks, with relevant changes to handbook content taking place in a subsequent editions. The entire listing of all modifications for each rank can also be found at www.scouting.org/programupdates.

Tiger

No Change to the General Requirements for Cub Scout Rank Advancement (words in blue represent minor edits)

Rank advancement is awarded when boys have completed the following:

1. Complete each of the **six** required Adventures with your den or family.
2. Complete **at least one** elective Adventure of your den or family's choosing.
3. With **your parent, guardian, or other caring adult**, complete the exercises in the pamphlet *How to Protect Your Children from Child Abuse: A Parent's Guide*, and earn the Cyber Chip award for your age. *

* If your family does not have Internet access at home AND you do not have ready Internet access at school or another public place or via a mobile device, the Cyber Chip portion of this requirement may be waived by your parent or guardian

Modifications in Specific Adventures

To shorten the time required to complete requirements (and thus advance), most of the recommended changes involve the number of requirements to be completed.

The presence of a ★ indicates that some modification of content has been provided for an Adventure. The modifications range from a change of only one word to general re-wording or re-organizing.

Little Change to the General Requirements for Advancement (modifications in blue – for total of at least 7 Adventures)

Rank advancement is awarded when boys have completed the following:

1. Complete each of the **six** required Adventures with your den or family.
2. Complete **at least one** elective Adventure of your den or family's choosing.
3. With your **parent, guardian, or other caring adult**, complete the exercises in the pamphlet *How to Protect Your Children from Child Abuse: A Parent's Guide*, and earn the Cyber Chip award for your age. * *The Cyber Chip portion of this requirement may be waived by your parent or guardian if you do not have access to the Internet.

Modifications in Specific Adventures

To shorten the time required to complete requirements (and thus advance), most of the recommended changes involve the number of requirements to be completed. The presence of a ★ indicates that some modification of content has been provided for an Adventure. The modifications range from a change of only one word to general re-wording or re-organizing.

Adventures in Science

Do all of these:

1. An experiment is a "fair test" to compare possible explanations. Draw a picture of a fair test that shows what you need to do to test a fertilizer's effects on plant growth.
2. Visit a museum, a college, a laboratory, an observatory, a zoo, an aquarium, or other facility that employs scientists. Prepare three questions ahead of time, and talk to a scientist about his or her work.
3. Complete any four of the following:
 - a. Carry out the experiment you designed for requirement 1, above. Report what you learned about the effect of fertilizer on the plants that you grew.
 - b. Carry out the experiment you designed for requirement 1, but change the independent variable. Report what you learned about the effect of changing the variable on the plants that you grew.
 - c. Build a model solar system. Chart the distances between the planets so that the model is to scale. Use what you learn from this requirement to explain the value of making a model in science.
 - d. With adult supervision, build and launch a model rocket. Use the rocket to design a fair test to answer a question about force or motion.
 - e. Create two circuits of three light bulbs and a battery. Construct one as a series circuit and the other as a parallel circuit.
 - f. Study the night sky. Sketch the appearance of the North Star (Polaris) and the Big Dipper (part of the Ursa Major constellation) over at least six hours. Describe what you observed, and explain the meaning of your observations.
 - g. With adult assistance, explore safe chemical reactions with household materials. Using two substances, observe what happens when the amounts of the reactants are increased.
 - h. Explore properties of motion on a playground. How does the weight of a person affect how fast they slide down a slide or how fast a swing moves? Design a fair test to answer one of those questions.
 - i. Read a biography of a scientist. Tell your den leader or the other members of your den what the scientist is famous for and why his or her work is important.

Castaway

1. Do two of these:
 - a. With the help of an adult, demonstrate one way to light a fire without using matches.
 - b. On a campout with your den or family, cook two different recipes that do not require pots and pans. If your chartered organization does not permit Cub Scout camping, you may substitute a family campout or daylong outdoor activity with your den or pack.
 - c. Using tree limbs or branches that have already fallen or been cut, build a shelter that will protect you overnight.
2. Do ALL of these:
 - a. Learn what items should be in an outdoor survival kit that you can carry in a small bag or box in a day pack. Assemble your own small survival kit, and explain to your den leader why the items you chose are important for survival.
 - b. Show you can live "off the grid" by minimizing your use of electricity for one week. Keep a log of what you did. Discuss with your den members how you adjusted to this lifestyle.
 - c. With your den, invent a game that can be played without using electricity and using minimal equipment or simple items.
 - d. Name your game, write down the rules once you have decided on them, then play the game at two different den meetings or outings.
 - e. Teach your game to the members of your pack or other Scouts.
 - f. With your den, demonstrate two ways to treat drinking water to remove impurities.
 - g. Discuss what to do if you become lost in the woods. Tell what the letters "S-T-O-P" stand for. Tell what the universal emergency signal is. Describe three ways to signal for help. Demonstrate one of them. Describe what you can do you do to help rescuers find you.
 - h. Make a list of four qualities you think a leader should have in an emergency and why they are important to have. Pick two of them, and act them out for your den. Describe how each relates to a point of the Scout Law. Describe how working on this adventure gave you a better understanding of the Boy Scout motto.

Webelos /AOL Elective Adventure

Into the Wild

Do six from requirements 1 through 9.

1. Collect and care for an "insect, amphibian, or reptile zoo." You might have crickets, ants, grasshoppers, a lizard, or a toad. Study them for a while and then let them go. Share your experience with your Webelos den.
2. Set up an aquarium or terrarium. Keep it for at least a month. Share your experience with your Webelos den by showing them photos or drawings of your project or by having them visit to see your project.
3. Watch for birds in your yard, neighborhood, or town for one week. Identify the birds you see, and write down where and when you saw them.
4. Learn about the bird flyways closest to your home. Find out which birds use these flyways.
5. Watch at least four wild creatures (reptiles, amphibians, arachnids, fish, insects, or mammals) in the wild. Describe the kind of place (forest, field, marsh, yard, or park) where you saw them. Tell what they were doing.
6. Identify an insect, reptile, bird, or other wild animal that is found only in your area of the country. Tell why it survives in your area.
7. Give examples of at least two of the following:
 - a. A producer, a consumer, and a decomposer in the food chain of an ecosystem
 - b. One way humans have changed the balance of nature
 - c. How you can help protect the balance of nature
8. Learn about aquatic ecosystems and wetlands in your area. Talk with your Webelos den leader or family about the important role aquatic ecosystems and wetlands play in supporting life cycles of wildlife and humans, and list three ways you can help.
9. Do ONE of the following:
 - a. Visit a museum of natural history, a nature center, or a zoo with your family, Webelos den, or pack. Tell what you saw.
 - b. Create a video of a wild creature doing something interesting, and share it with your family and den.
